# AAA METAVERSE

W E B 3

01 Blockchain  
games

02 Social and  
DAO

03 Decentralized  
finance

04 NFT trading  
platform

# Blockchain games

AAA Metaverse Gamefi

# Blockchain-based games are becoming the bigger part of the player world

The entire game industry will scale at \$203 billion.

01

The industry is developing rapidly

The GameFi has grown by about 2,000% over the past year  
Blockchain games in 2021 have raised about \$2.5 billion  
in venture capital

03

Play to Earn Community

All of these blockchain games are the community,  
Players can earn cryptocurrencies there  
and convert them into legal tender

02

Game is life

It's like making you live in the game  
In emerging markets such as Indonesia, some people  
even make a living by playing these games.  
players can earn a few hundred dollars a week

04

AAA Metaverse

The blockchain gaming world will merge  
with the metacosmos and form its own economy.

# AAA METaverse AND MONSTERVERSE

Monster world

OASIS oasis

AAA  
METaverse

# AAA METaverse Gamefi

## Mission

Web3.0 Technology for Game Company. The main goal is to develop blockchain games that will allow players to truly have game assets.

## Token

Users will have more control over the sites they visit because they can earn or buy AAA Metaverse Token, and these AMT allow them to vote or unlock features on decisions.

## DID

Users do not need to log in separately for each site they visit, but will use a centralized identity (their encrypted wallet) carrying their information.

# Social and DAO Governance

The DAO will bring democracy  
back to the network

# The AAA METAVERSE was governed with the DAO

Web3 will create new economies, new product categories, and new online services

50%

New democracy The DAO was organized and performed

DAO (decentralized autonomy) operates like leaderless businesses

75%

The DAO organization raises and spends funds, but all decisions are voted on by members and enforced through coding rules.

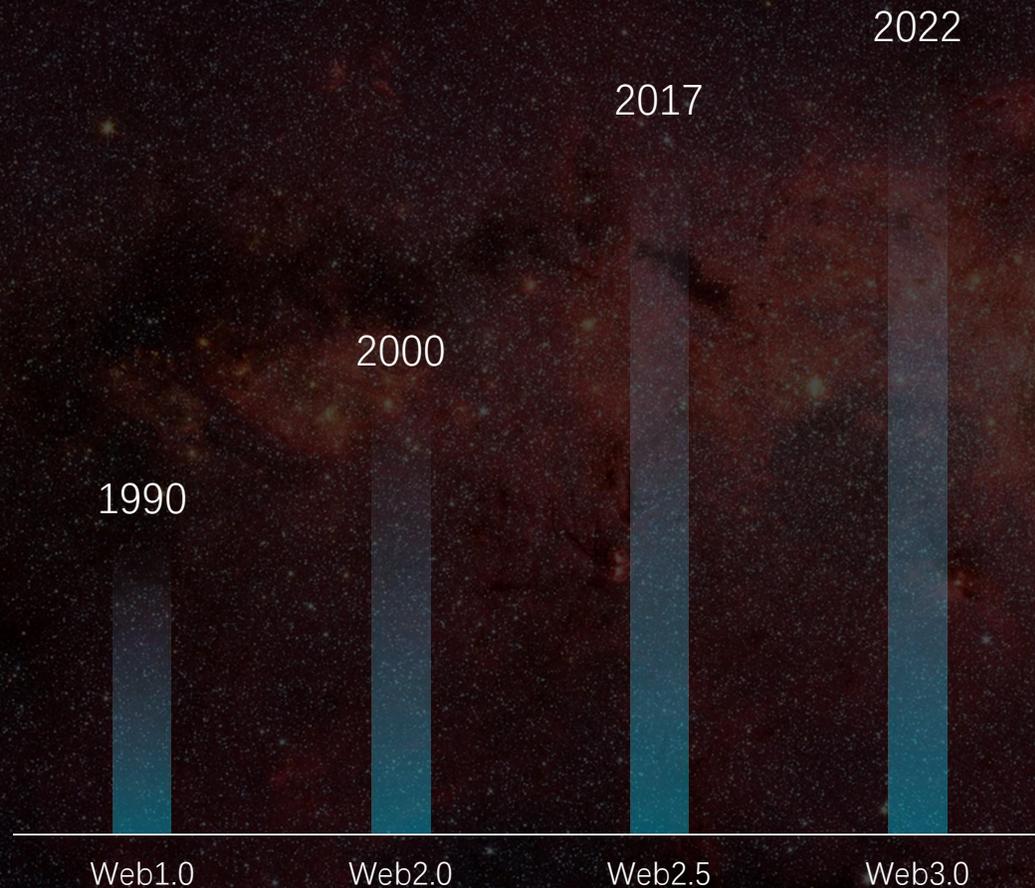

100%

case

ConstitutionDAO has recently raised \$47 million in an attempt to purchase a rare copy of the US Constitution. StepN builds the running social DAO community sports to Earn

# what is the DAO?

The DAO is a safe and effective way to work with like-minded people around the world

## Why do we need a DAO?

With DAO, you don't have to trust anyone else in your organization, just trust the DAO code, which is 100% transparent and anyone can verify.

## How does the DAO work?

Smart contracts are at the heart of the DAO. The contract defines the rules of the organization and manages the organizational funds. DAO does not need a centralized management. Instead, the organization makes a decision, and payment is automatically approved after the vote.

## DAO membership

Membership on the token  
Share-based membership

# Ethereum and DAO

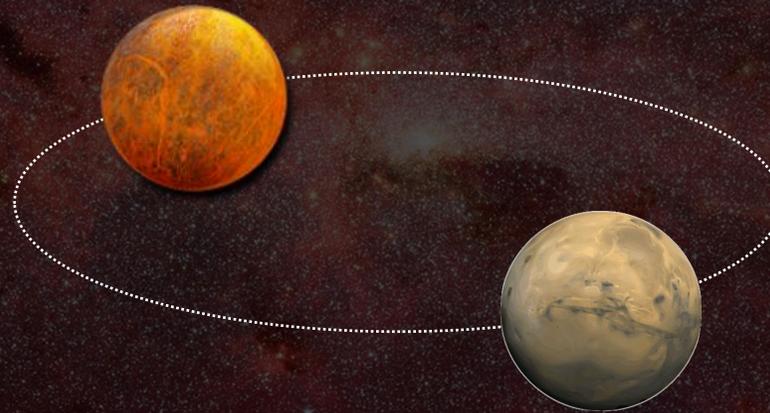

Ethereum provides a good foundation for the DAO

## Digital Dollar Value

Ethereum itself has built enough consensus to trust the Ethereum network.

## Robotization

Smart contracts can send / receive funds. Without that, you need trusted middlemen to manage organizational funds.

## Safe

Smart contracts that become effective cannot change, even by their owners. This allows the DAO to run by programming rules.

## DAO to Winwin

The DAO community is more cooperative than competition, creating a proliferation of applications and services

03

T H R E E

# Decentralized finance

WEB3 Finance Open to AAA Metaverse members

# What is the Defi?

A distrust and transparent protocol that uses decentralized networks to transform old financial products to operate without intermediaries

## Solve the pain points and injustice

Some people cannot set up a bank account or use financial services. Failure to access the financial services can prevent people from finding jobs.

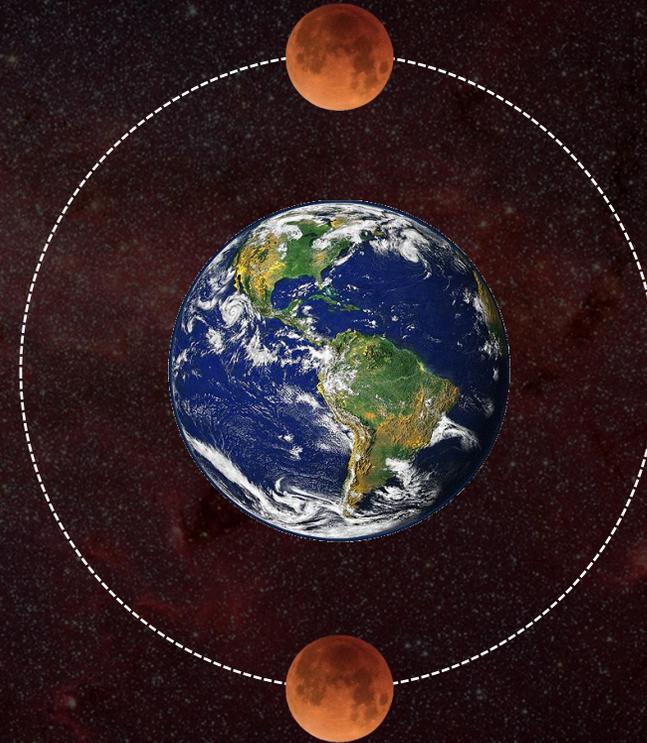

## Protect your personal data

One implicit charge for financial services is personal data. The Government and central agencies can close the markets at will.

## Defi improves financial efficiency

Trading hours are usually limited to business hours in a specific time zone. Money transfers can take several days due to internal manual processes. There is a premium for financial services because intermediaries need to share it.

# AAA METaverse DEFI

You hold your money for the AMT

transparent

Anyone can check it out  
AMT Product Data  
And check the system health

Liquidity

Based on the capital pool, the lender refers  
to the borrower  
The capital pool that can be  
borrowed provides funds

freedom

You can control how your money flows and works

shortcut

Funding transfers  
were completed within minutes

sustainability

Trading hours are 24 hours uninterrupted

# The NFT trading platform

The asset digital and token certification

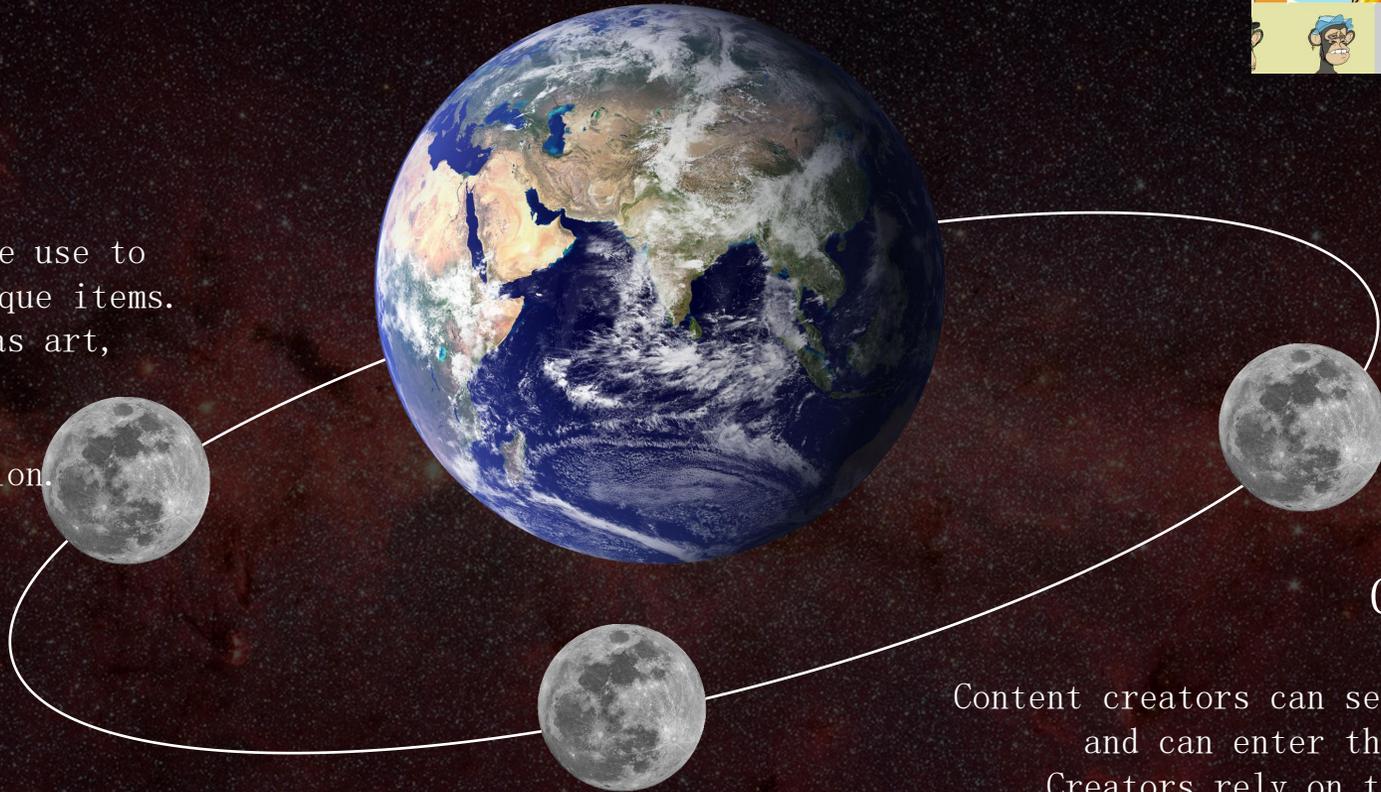

# Iconic year of NFT in 2021

The Boring Ape Yacht Club (BAYC) is the biggest success of NFT projects to the mainstream.

## What is the NFT?

The NFT is the tokens that we use to represent the ownership of unique items. NFT allows us to put such as art, collectibles, Even real estate and other items tokization.

## AAA METAVERSE Asset Internet

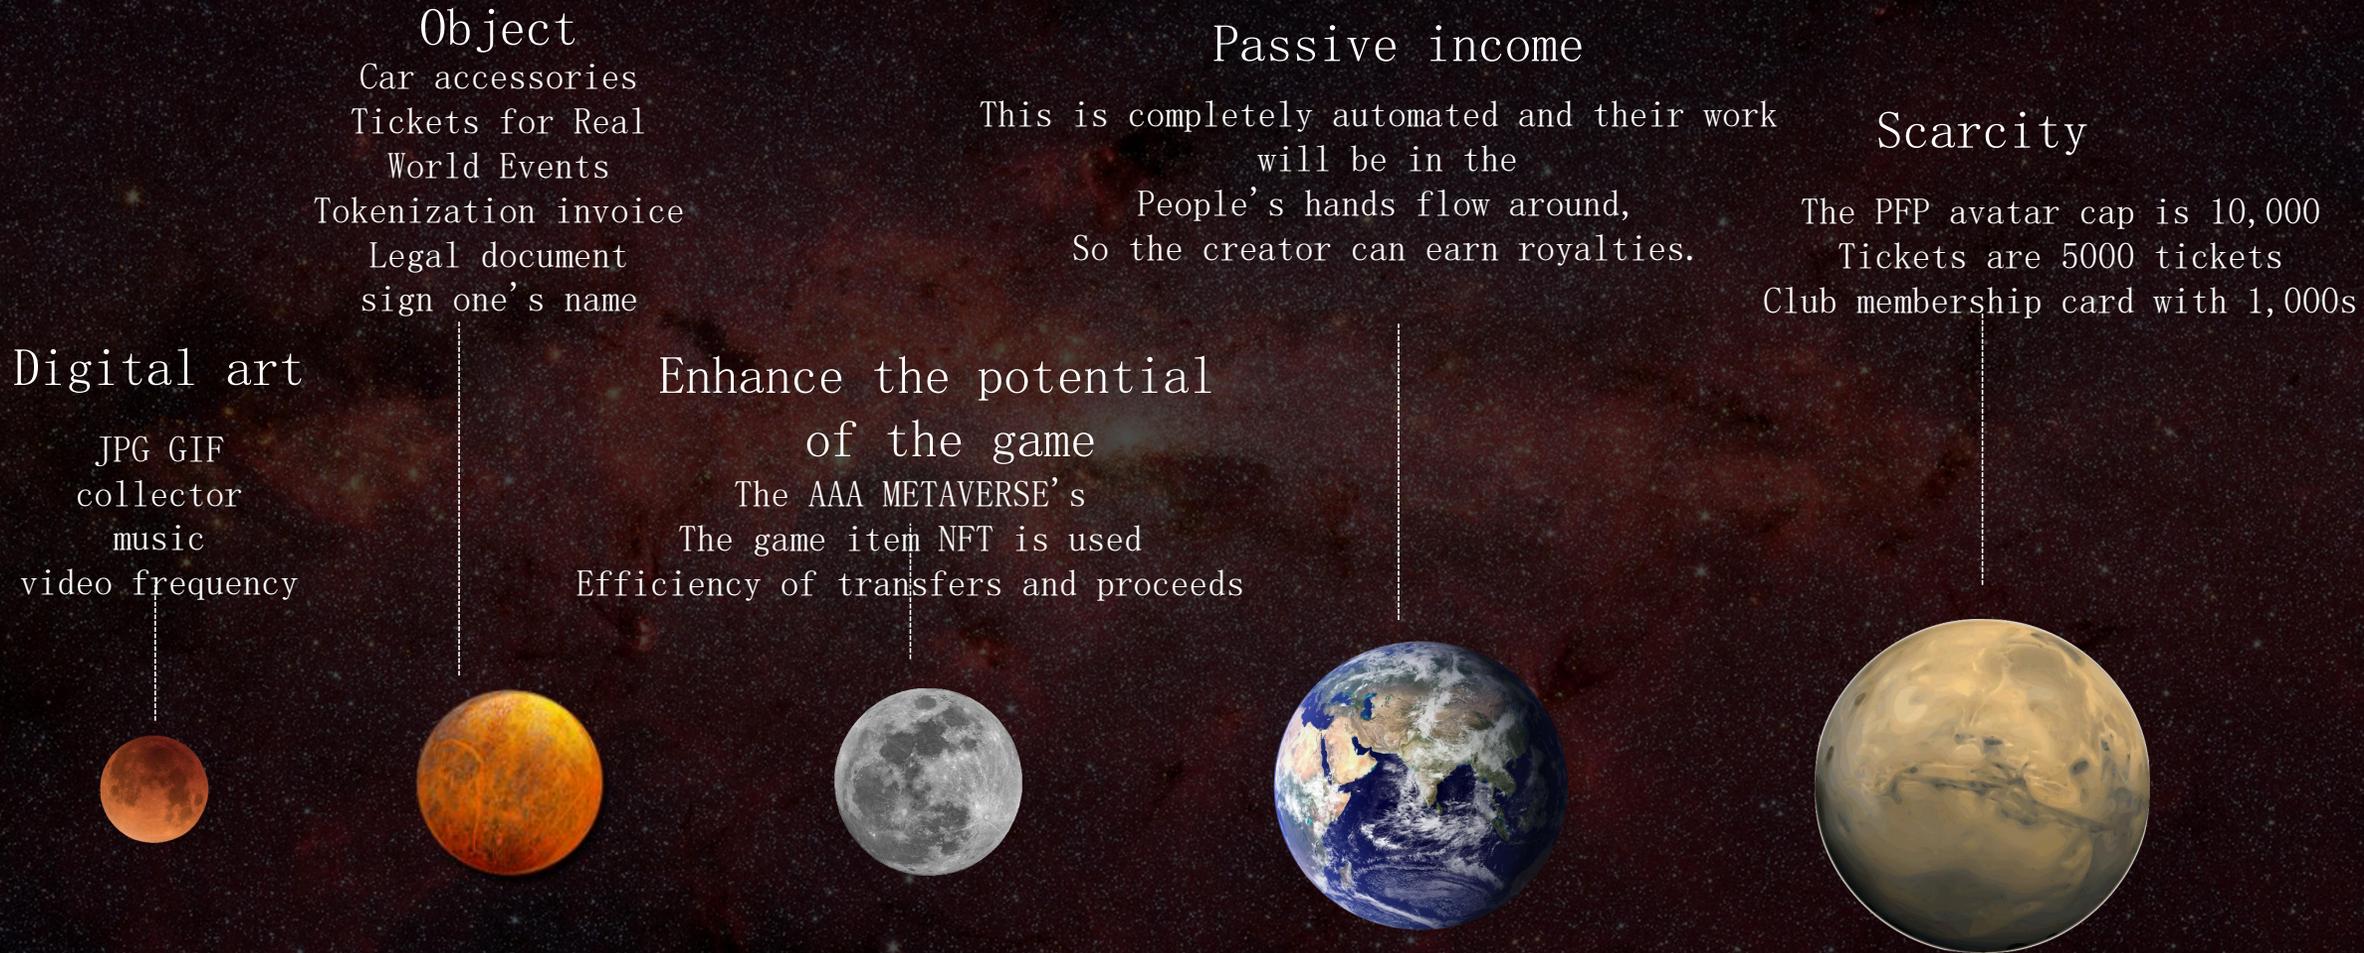

NFT is unique in the digital world without two identical NFT

## Copyright

Content creators can sell their work anywhere and can enter the global market. Creators rely on the infrastructure and distribution of the platform used. These are often subject to terms of use and geographical restrictions. The creator may retain ownership of his work and directly demand resale royalties.

# How does the NFT work?

The NFT supports the allocation or declaration of ownership of any unique digital data, which can be traced by using Ethereum's blockchain as a public ledger. The NFT is cast of a digital object representing a digital or a non-digital asset.
